NEVER ALONE: HOW SPIRITUAL IDEAS WORK IN US

A TALK BY:

MELANIE WAHLBERG

Christian Science
Practitioner & Member
of the Christian Science
Board of Lectureship

Simple ideas, about God's nature and about our nature as expressions of God, stir something new in our consciousness. They work in us in ways that change our lives and our health for the better. But how do we find these healing ideas consistently?

Come hear Melanie share ideas on how the teachings of Christ Jesus, our best and most practical example, have transformed lives.
